

Dr. (Anthony) Tony Taylor

Dr. Tony Taylor is Vice President, Quality and Patient Safety for the Fraser Health Authority, the largest health region in British Columbia. Since March 2005, his arrival to Fraser Health, Dr. Taylor has led the redesign of key clinical areas including Infection Control, Quality and Patient Safety Program and Medical Governance. He has developed and implemented Fraser Health's Integrated Risk Management Program and a Regional Ethics Program. In partnership he is responsible for Medical Affairs of Fraser Health.

Dr. Taylor is a practicing Royal College Fellowship trained Emergency Physician. Dr. Taylor has held a number of senior administrative positions including Interim Department Head of the Regional Department of Emergency Medicine, Calgary Health Region; Executive Medical Director Care in the Community, Calgary Health Region; and Medical Director in the Chief Medical Officer portfolio, Calgary Health Region.

Dr. Taylor holds a Bachelor of Medical Science and Medical Doctorate degrees from the University of Alberta. Dr. Taylor has completed his MBA from Queen's University.

Dr. Taylor is the past president of the section of Emergency Medicine of the Alberta Medical Association. He is the past Chair of the Standards Committee for the Canadian Association of Emergency Physicians and is a Clinical Associate Professor, University of Calgary. In addition Dr. Taylor has been involved in providing Medical Leadership for the Calgary Olympic Games, and various community sports programs.
