

Virtual Collaborative

Doris Doidge, Project Manager
Spring Thaw
June 2009

Aim of Collaboratives

- Improve outcomes and quality of care
- Collaboratives are designed “to rapidly diffuse knowledge and spread best practices on the basis of an “all teach, all learn” philosophy”
- Brings together teams from hospitals or clinics to achieve rapid, significant improvement in a specific area
- Last from 6 months to 18 months

The Collaborative Model
